The Nutcracker is the most elaborate annual production on the Coast!

The beauty of the Nutcracker is that it combines professional and local dancers who are eagerly learning the profession and nuance of classical ballet. The Nutcracker is a family tradition that has been taking place in cities around the world for over 123 years and that tradition has been available on the Sunshine Coast now as we enter our fourth year.

Maintaining the standard of excellence that makes this production so exceptional, involves an annual expense that far outpaces the revenue captured by ticket sales. In order for the Nutcracker to achieve ever higher and higher standards the shortfall of the funding relies on donations from generous benefactors who appreciate the fine arts. This annual tradition creates lifetime memories between parents, children, and dancers. Cultural events play an important part in making a diverse community and an attractive place to make a home.

Won't you become a donor today! Keep the magic and the dreams alive!
